

HICAP, File Download button  
Features

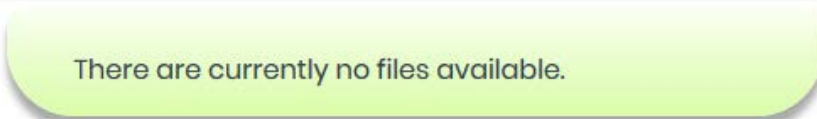

The file download button exists on webpage: <http://dev.mysourcewise.com/appointments> below the Counseling Sites map.

Within the section “Health Insurance Counseling & Advocacy Program.”

The button allows the following features to be customized:

1. Provide files for the end user to view and download if desired
  - a. Files should be in secured PDF format
2. Provide no files for viewing/download
  - a. Instead display a customizable message such as “no files available for download at this time.”

3. Provide a file through a separate link which appears to the bottom right of the button
  - a. This link is meant for highlighting a specific file, such as instructions.
  - b. Use this link sparingly.

EXAMPLE-How to Use our Counseling Site Map

All files downloaded from the site must meet Sourcewise branding standards; and each file opens in a new browser window/tab. This allows the end user to maintain access to the “/appointments” page.
